

COAL CONFERENCE FACES DEADLOCK

OPERATORS IN NATIONAL MEETING WILL NOT CONCEDE DEMANDS OF THE MINERS.

By the Associated Press
WASHINGTON, Nov. 22.—A deadlock between bituminous operators and miners in the central competitive field was forecast for today by Thomas B. Brewster, chairman of the operators, when the joint scale committee met to discuss wage proposals made yesterday by Secretary of Labor Wilson.

Brewster said Mr. Wilson's proposal of a wage advance of 27 12-100 per cent for diggers and \$1.50 a day for day laborers was wholly unsatisfactory to the operators. He added that the increase would amount to approximately forty per cent for machine miners or the same as that proposed by the miners yesterday after their president, Jno. L. Lewis, had conferred with the labor secretary.

SPRINGFIELD, Ill., Nov. 22.—Predictions of an early settlement of the coal strike were received here today from Stevens Sullivan, president of Springfield, sub-district of the United Mine Workers who is in Washington attending the conference of mine officials and operators. Sullivan telegraphed officials of the miners here that he expected an agreement on a 31 per cent increase and that work would probably be resumed within three days.

MURPHY FILES SUIT AGAINST HEARST

By News' Special Service
NEW YORK, Nov. 22.—The complaint in Charles F. Murphy's suit against William R. Hearst and his American and Evening Journal was filed in the Supreme Court yesterday. Mr. Murphy contends that the editorial, "Swat the Boss," published Oct. 27, 1919, contained false statements concerning him in charging that he used his position as Tammany leader to enrich himself.

The editorial, it was said, was based on testimony given before trial in Louis D. Hartog's suit against Mr. Murphy in connection with their investment in glucose. Mr. Murphy states that he is known to his fellow citizens in New York and throughout the United States as well as in Great Britain, as a man of integrity and honorable purposes.

MEXICO IGNORES AMERICAN PROTEST

NO ATTENTION HAS BEEN PAID TO WASHINGTON DEMAND FOR RELEASE OF CON-SUL JENKINS.

By the Associated Press
WASHINGTON, Nov. 22.—Although the note sent by the American government to the Mexican government Wednesday, demanded the immediate release of William O. Jenkins, American consular agent at Puebla, was delivered to the Mexican foreign office the same evening, the Mexico City press yesterday said Jenkins was still in the penitentiary, it was announced today at the state department. No reply to the America note has been received and there was no indication when one would be received.

Officials reiterated today that the department received no information that would tend to sustain the charges of Puebla state authorities that Jenkins was in collusion with the bandits who kidnaped him and held him for \$150,000 ransom.

The Mexican foreign office had advised the state department that it is taking action in the case of Eugene Lack, an American citizen, who was shot in Mexico on Nov. 14, and who died later at El Centro, California. The Mexican note said a proper authority had been notified of the shooting with a view to an "early settlement of justice."

Suit for Divorce.

A suit for divorce was filed in the district court of Pontotoc county November 11, with John Huffman, plaintiff, and Minnie Huffman, defendant.

1.—That this plaintiff and defendant were married at Ardmore, Okla., on or about the 17th day of September, 1912.

2.—That on or about the 14th day of August, 1919, said defendant sold all their household goods while this plaintiff was off at work and abandoned this plaintiff, since which time she has lived separate and apart from this plaintiff, said defendant has repeatedly declared she would not continue to live with this plaintiff no matter what he might do; that the defendant possessed an ungovernable temper, that the defendant was in the habit of receiving mail from parties unknown to this plaintiff.

3.—That plaintiff and defendant have three children, William, age six, Rosie Madill, age three, and Oma, age 1 1/2 years.

4.—That the defendant in all things has provided for and cared for the defendant during the time she lived with him and that he is without fault in the previous time.

Wherefore, plaintiff prays that he be granted a divorce from said defendant.

MARY PICKFORD IS DEFENDANT IN SUIT

By News' Special Service
NEW YORK, Nov. 22.—The second trial of Mrs. Cora C. Wilkenning's suit against Mary Pickford to recover \$108,000 for services in arranging the contract with the Famous Players in which Miss Pickford was paid \$1,080,000, began yesterday before Supreme Court Justice Platzek and a jury. Mrs. Wilkenning obtained a verdict for \$108,000 on the first trial, but the Appellate Division set it aside on the ground that the testimony did not warrant the verdict.

The plaintiff testified yesterday that Miss Pickford in 1915 asked her to be her (Miss Pickford's) adviser and manager. She is alleged to have told the plaintiff that she did not believe Adolph Zukor of the Famous Players realized her value and stated that she was disturbed by a contract that Charlie Chaplin had a contract for a "fabulous" sum by which he was paid more than she received.

The trial of the case will be continued today.

Bishop Reduces His Own Salary To Help Others

By the Associated Press
LIVERPOOL, Nov. 22.—The Right Rev. Francis Chavasse, Bishop of Liverpool, has voluntarily cut his salary down more than half in order that the vicars and curates in his diocese may receive better salaries. Dr. Chavasse receives \$21,000 a year. He has announced that \$10,000 is sufficient for him and that the remaining \$11,000 can go toward the sum being raised to secure a salary of \$2,000 a year for every vicar and \$1,000 for each curate.

STRIKING MINERS ARE COOPERATING

By the Associated Press
SPRINGFIELD, Ill., Nov. 22.—Striking soft coal miners of Illinois are buying through co-operative stores, fostered by organized labor, as one means of winning their fight, co-operative store men here declare.

There are seventy co-operative stores in the state of Illinois, according to Duncan McDonald, secretary of the National Co-operative association.

By eliminating the middleman, miners are enabled to buy groceries and other supplies at wholesale prices, it is said. A wholesale house has been established at East St. Louis with a capital stock of \$50,000 and a monthly business of a similar amount.

Miners are said to group together into buying clubs which order from the wholesale houses through the secretaries of local unions which are required to own at least a single \$100 share in the establishment.

KANSAS LEADING IN ROAD BUILDING

By the Associated Press
TOPEKA, Kan., Nov. 21.—Kansas has made more progress in the past year in highway improvement, than any other state in this federal aid district, M. W. Watson, state highway engineer, stated today in an address before the Association of County Commissioners, in session here. The speaker gave a history of the federal aid, whereby this state was allotted nearly \$8,000,000, and of the work of the state highway commission which was created by an act of the legislature in 1917.

Mr. Watson told the county officials that to date Kansas has petitioned for 1,344 miles of road at an estimated cost of \$48,859,395. He said:

"There were petitioned in 1918 a total of 410 miles of road, which would require about \$5,957,500 of the federal aid funds. Up to the present time federal aid has been granted on 468 miles of road at an estimated cost of \$24,005,104 and to date we have petitions on file in the office of the state highway commission covering 1,344 miles of road at an estimated cost of \$48,859,395, requiring over \$17,000,000 in federal aid to meet it on our present basis."

Although it is impossible to contribute federal aid to all these highway propositions, the petitions are kept on file and it is hoped that further federal aid will be allowed by congress. He explained that such counties as have not either let the contract or started the work by next April 1, their share of federal aid will be withdrawn and given to other counties which are ready to use it.

DENEKINE ROUTS BOLSHEVIK ARMY

OVERWHELMS RED TROOPS ON LINE BETWEEN OREL AND TAMBAY IN SOUTH RUSSIA.

By the Associated Press
STOCKHOLM, Nov. 22.—General Denekine, commander of the entire anti-Bolshevik armies on the southern Russian front, claims to have broken thru the red lines between Orel and Tambay, southeast of Moscow, and to have routed 50,000 Bolsheviki troops, according to a Helsingfors dispatch to the Svenska Dagblad. Recently, reports from southern Russian fronts have appeared to indicate that General Denekine was being driven southward by the Bolsheviki. General Denekine reached Orel about a month ago, but there encountered such strong resistance that he was forced to resort to the defensive.

Supreme Court Sustains Judge.

Where Was Moses?

Ada was in utter darkness last night for about one hour. The principal main supplying the light plant with gas broke down and cut off the juice for the longest hour the oldest inhabitant ever saw. Old lamps and imitation candles were brought out and picturesque language floted up and down both streets and alleys. A supply of gas was finally turned in from a reserve and Ada once more became the brightest spot on the earth.

WARCLOUDS LOOM ALONG ADRIATIC

TROOPS OF ITALIAN INSURGENT VERSIFIER READY TO ATTACK FORCES OF THE JUGO-SLAV.

By the Associated Press
LONDON, Nov. 22.—The situation on the Adriatic, as a result of Gabriele D'Annunzio's coming, has reached a crisis. Private advices leave no doubt that he is determined to annex Dalmatia and attack Montenegro.

The Jugo-Slavs are reported to have concentrated troops and to be prepared to resist aggression. Another report says a republican unperpetrated directed against the Italian monarchy exists among the Italian forces.

It is stated in advices that further aggression by the insurgents will be certain to precipitate hostilities with the Jugo-Slavs, who, however, it is declared, will direct their attack against D'Annunzio and not the Italian government.

INDUSTRIAL TRUCE URGED BY WALKER

ST. LOUIS, Nov. 21.—The creation of an industrial adjustment commission in each state with a national body as a court of appeals was urged before the American Mining Congress here tonight by Allen Walker of the Guaranty Trust Company, New York, in advocating a year's armistice between capital and labor.

Each state commission would consist of one representative each of labor, capital and the state, with two representing the public. The commissions would have power to standardize wages and ensure adjustments. During the proposed armistice there should be no lockouts or strikes, and capital and labor would be pledged in advance to abide by the ruling of the National Commission.

Union methods have drifted from an honest effort at collective bargaining to an organized labor bureaucracy that has placed a premium on inefficiency, asserted Harry R. Taylor, president of the National Coal Association, in an address read to the congress. The organized miners' strike is an attempt to force a huge tribute from the American people on the cost of their fuel and an attempt in winter to stop the wheels of industry and transportation, and force the submission of the defenseless public through hunger and cold, and the sufferings of women and children will arouse no sympathy in the heartless juggernaut of radical unionism, he continued.

George Otis Smith, Director of the United States Geological Survey, urged increased production, asserting: "There can be no return to Garden of Eden conditions of consumption without productive industry."

A resolution proposed by Walter Douglas of New York protested to the state department against "further disregard by the American government of conditions in Mexico that make it unsafe for American citizens there."

The prohibition of the melting of gold coin for use in the past to aid the gold-mining industry, was suggested by George E. Roberts, vice president of the National City Bank, of New York.

More Cotton Is Ginned This Year Than For Last

In spite of the continued rains of October more cotton had been ginned in Pontotoc county prior to November 1st than had been ginned at the same date in 1918. According to the report of A. W. McKeel, special agent for this county, 11778 bales had been ginned the first of the present month. For the same period last year only 10,558 bales had been ginned, and both reports round bales were counted as half bales.

According to the best estimates, nearly one-half of this year's cotton is still in the fields. The difference in the production added to the substantial difference in the price, means great things for the cotton producers of Pontotoc county—the weather will only permit the crop to be gathered.

CENTRAL CINCHES CHAMPIONSHIP

DEFEATS EAST CENTRAL 41-0; LOCALS RALLY AFTER FIRST PERIOD AND PLAY WONDERFUL BALL.

Central Normal of Edmond had things her own way last afternoon in the first quarter of the game on the Normal gridiron and defeated the East Central football eleven, 41 to 0. After the first period the East Central boys rallied and played a wonderful game, making good gains on forward passes, blocking runs, and simply demonstrating that the team can play. Central made 27 of her 41 points in the first fifteen minutes. This gives Central undisputed Normal School championship.

The field was a sea of mud and water, making handling of the ball extremely difficult and slowing up the fleet backs of the home team. Central came down with one of the heaviest teams in the state, and the game yesterday was a contest between this brawn and the teamwork of Coach Newcomb's lighter line and backs. The mud was a distinct advantage to the brawn and this explains why the scoring in the first quarter ran so high. After this, the home lads began to punch the brawn with kicks that counted and the brawn weakened.

Forgetting that sickening first fifteen minutes, the East Central lads played by far the best ball they have shown this year. Better judgment was used in close places and quicker thinking was exemplified throughout.

Central Normal has a wonderful aggregation of players. Byrd, Holland, Williamson and Courtney make a combination of backs that are hard to beat. They are heavy, fast, use keen judgment and are always in the game. The line is heavy, but is not so good as the backs. The Ada lads were able to plug holes in the Central line, but getting by those two halfbacks was impossible. Central used to advantage one play seldom used in games of this kind, right half taking the ball around right end, and the left half around left end. This proved a good ground gainer.

The East Central line held like a stone wall after the first quarter. King, Kidd and Tolliver were on their guard at all times and Anderson refused to let them pass him at the guard position. Brents was a star on the ends, going out and pulling down forward passes several times and was a fiend in breaking up the shots of the opponents. Ingram on the other end let some good tackles get by him, but showed spurts of speed and was one of the best ground gainers.

Vernon was unable to get into the game for some time, due to an injury to his back in the high school game a few days ago. When he did get in, he made things pick up.

This is the last game the Normal will play at home, the Turkey Day game being at Durant.

Dirt Roads.

The highway running east and west is but a sad and sorry fest. In droughty seasons it will do; then motor cars along it echo, and loaded teams climb up its hills, and dislocate no poles or thills. And this is why I sometimes say the government should do away with rain and moisture of that stamp, so that the road may not get damp. For when

the water drips and pelts, that dog-gone highway simply melts like sugar in a cup of tea, and there's no thoroughfare to see. Some drowning mules we may behold, and autos from the culverts rolled, and swearing men who ply the jaw and say there ought to be a law. We've blown in millions more or less to make that road a big success. We've graded and we've plowed and dragged, we've engineered and cursed and bragged, we've founded horses by the herd, to make the highway less absurd. And when the weather's good and dry it pleases the aesthetic eye; it's scraped and manicured so nice we think it's surely worth the price; we bowl along its dusty miles, our faces wreathed in beaming smiles. Then Pluvius uncorks his trough, it rains, and all the stuff is off. I wonder if we'll ever rise, unswerving purpose in our eyes, and build the kind of roads that last through vernal rain and wintery blast?—Walt Mason.

A Shabby Deal for Farmers.

Just at a time when the production of all things essential to the well-being of mankind the world over is so scant and so costly; when the duty of all able-bodied and well-meaning people should be Work and Save, there is an insistent clamor by town and city workers in almost every vocation and shop, for higher wages, for a week of five days, and forty-eight or forty-four hours, while the man whose toil produces the bread, meat, milk, fruit, all the food for the sustenance of the people, must toil from sun to sun six days in the week, and with scanty help, often none at all, because it is lured to the cities by the offer of high wages and by a false hope of a gay and easy life. Is it any wonder food is high? Surely not. As food won the war, so will it win peace, if those who produce it are given a Square Deal.—The Farm Journal.

FASHIONS CAUSE OF ALL OUR ILLS

By News' Special Service

PARIS, Nov. 21.—Practically all of the great evils now confronting the civilized nations of the globe may be laid at the doors of feminine craze for indecent and extravagant dress, according to Dr. Poveau de Courmelles, one of the best known physicians in Europe, and a leader in the suffrage movement for more than thirty years.

These startling conclusions are set forth in an article by Dr. de Courmelles dealing with the effect of immodest and expensive dress upon the shortage of the baby crop and just published in La Revue Mondiale.

Dr. de Courmelles indicts "her majesty, Dame Fashion," on the following counts:

1—She forces her subjects to make themselves slender by artificial means.

2—She causes women to expose their bodies to all kinds of weather.

3—By indecent variations of styles she causes women to spend so much on clothes that many men are unable to marry and those who are married are unable to maintain large families of children.

4—She is the direct cause of much immorality prevalent in civilized nations.

5—She is a powerful, indirect cause of drunkenness and extravagant expenditure in other lines, since women who are fashionably dressed love to display themselves in restaurants, cafes and at the theatre.

6—By sharpening the contrast between wealth and misery she is the cause of much of the revolutionary agitation now spreading throughout the globe.

"If a woman appears at all plump her dressmaker tells her: 'Madame, you are too fat; you must do something to make yourself slender,'" says Dr. de Courmelles, "and she follows this advice. So we see the corset, useful to sustain the body, become an instrument that causes abnormal displacements. It used to be said that 'a woman is a being who dresses herself, gossips and then undresses herself,' but that is a mistake nowadays; at least upon the first and third points.

Women Not Dressed Until They Are Undressed.

"Women's clothing has reduced itself to the most simple expression by the slenderness of the body on the one hand and by the scantiness of the raiment on the other. She is

dressed in 1919 when she is undressed.

"Now, as to my second point. The greatest part of the body is uncovered by the present gay fashions. That permits Dame Fashion to collaborate with the physicians insofar as fees are concerned, but is something that physicians do not desire. In exposing the throat, the chest, the legs and the arms to all of the cold winds, Dame Fashion produces all kinds of colds, grippe, tuberculosis and helps lower the birth rate. A woman is no more mistress of her body. Style is sovereign.

"And as to the children—they are scarcely dressed at all in France. So we have the Spartacist selection. Only the robust survive, and the others, with bare legs exposed to the weather and insufficiently clad, catch all kinds of afflictions.

They Cannot Afford to Maintain Wives.

"On the third point we wish the world to know that men don't marry only because they cannot afford to maintain things 'de luxe.' We spend most of our resources to sustain a bluff. It is these heavy expenditures which kill the infant before it has a chance to be born. Few men remain bachelors not maintain wives in such style, but because they themselves love to associate with women gorgeously dressed. Everything that diminishes the amount of money spent in the home itself aids in the suppression of children and Dame Fashion is the leader.

"Life has become more dear and more complicated. It is out of all proportion to the increase in salaries, but it brings at the same time, by a peculiar anomaly, more coquetry into the world because Dame Fashion reigns and brings misery, immorality, jealousy and the things which debauch human lives. So we have prostitution, either open or clandestine, out of need for money for costumes de luxe. How many crimes against the marriage vow have been committed for beautiful robes, jewels or collars of pearls?

"To remedy this, let us push forward the feminist movement. The women are going to vote and adapt themselves better to economic conditions. The feminist mentality is going to change more and more and finally we shall see France as we knew her before us."

YANKEE UNREST IS HELPING THE WELSH

By the Associated Press

SWANSEA, Wales, Nov. 21.—Labor unrest in America is said here to have benefited Welsh manufacturers. A wave of prosperity is sweeping over Swansea and its surroundings which residents declare is reminiscent of "the good old days"—pre-war days when Swansea thrived.

The factories in the vicinity cannot keep pace with the orders flooding in. Iron, steel and tinplate works are glutted with orders and though prices have been forced upward through competitive bidding by eager buyers, this is not acting as a deterrent.

The Swansea Labor Exchange reports there are fewer persons unemployed now than at any time since the armistice, and the numbers are decreasing weekly. Wages on all hands are such as to attract labor—unskilled workers receive \$20 to \$25 weekly, which is materially higher than is paid in other localities in England.

ITCH!
A WAR-TIME ILL THAT'S SPREADING
HUNT'S SALVE CURES IT!
BRED in the war trenches of Europe, a wave of ordinary ITCH is spreading over the country. This skin disease, history shows, has always prevailed, following wars and the concentration of armies. It was common during the Civil War and following that conflict. There was an epidemic of the Itch after the Spanish-American War. Now history is repeating itself after the great European struggle.
Returned soldiers and those with whom they come in contact will find a recognized remedy for the Itch in Hunt's Salve, commonly known as "Hunt's Itch Cure." Many a veteran of the late '90's will testify to its merits.
If directions are followed HUNT'S SALVE will prove a never failing cure for all forms of the Itch, and your druggist will tell you so. He sells HUNT'S SALVE under a strict guarantee to refund the purchase price to any dissatisfied user.
A Medford, Oklahoma man, among thousands who praise HUNT'S SALVE, says:
"Some people dislike to call it the Itch, but candor compels me to admit I had it badly. Four of Hunt's Salve, however, cured me after many other remedies had totally failed. One box completed the cure—the first application afforded wonderful relief. My advice to those who have to scratch, is to use Hunt's Salve."
Hunt's Salve is especially compounded for the treatment of Itch, Eczema, Ringworm, Tetter and other itching skin diseases and is sold on our guarantee by all reliable drug stores, or it will be sent direct by mail if your local druggist cannot supply. Price 75c per box.

CHURCHES

First Baptist Church.

Last Sunday we had 420 in Sunday School. This was good, but we ought to have 500 next Sunday. Let everybody plan now to come Sunday at 9:45.

The pastor will preach at 11 A. M. and 7:15 P. M. The size of the congregation has always been gratifying, and we hope to greet a full house at both services Sunday.—C. C. Morris, Pastor.

Presbyterian Auxiliary Entertained.

The Woman's Auxiliary of the Presbyterian Church met in social gathering Monday afternoon at the beautiful home of Mrs. Ed Gwin.

The guests were welcomed at the door by the hostesses, Mesdames Grigsby, Moore, I. M. King and Gwin.

After some time spent in social chatter and meeting our new members, the hostesses served a dainty salad course consisting of fruit salad, wafers, coffee and olives. Delightful music on the Victrola made the afternoon all the more pleasant.

Fidels Class Elects.

Last Sunday the Fidels Class of the First Baptist Church completed the election of class officers. They are as follows:

President—Miss Iva McAlester. 1st Vice President—Miss Fannie McKinney.

2nd Vice President—Miss Bess Barrow.

3rd Vice President—Miss Balthrop.

Secretary—Miss Leonard. Treasurer—Miss Lula McKinney.

Reporter—Miss Vera Grant. Teacher—Mrs. B. A. Mason.

Assistant Teacher—Miss Mae Grant.

The officers are requested to meet at the home of the president, corner of 16th and Rennie, Friday evening at 7:15 o'clock.

St. Luke's Episcopal Church, 109 E. 14th Street.

Services may be expected in this church tomorrow at the following hours:

Sunday School at 9:45 A. M. Morning services at eleven o'clock. No evening services.

In regard to the nation-wide campaign, the church throughout the country is awake and at work and prayer as she never has been before.

Present indications foretold great success and the results promise remedy of many of our weak points and especially those in our part of the country, so wisdom backs the spirit of real Christianity in saying: Get behind the movement with all possible consecration and energy.

A great man once said in substance: "The promises of God are for those who undertake the program of God."

There never was a greater opportunity for the church here, as well as elsewhere. Let's make the most of it. It will do us good individually and collectively.

Come and help us carry out the program. You are cordially urged.

Our country never needed real Christianity more urgently, and practical men are seeing this now as never before, an in consequence the response from them is the most splendid ever. Come—Rev. Franklin Davis Rector.

Preaching at Homer Schoolhouse. C. V. Dunn, minister of the Christian church, expects to preach at Homer school house tomorrow afternoon at 3 o'clock. He would appreciate it if some of the members would get into their automobile and go out to this school house and help in the service.

Choirs to Meet.

Choirs of the churches that will co-operate in the Thanksgiving service are asked to meet at the First Christian church Sunday afternoon at 3:30. The purpose is to prepare for Thanksgiving service. This service will be held in the Christian church Thursday morning at 10 o'clock. Rev. Morris of the Baptist church will preach the sermon. The

public is invited to this service. The house ought to be crowded on this occasion. Ministers are asked to announce this service tomorrow morning, and also the choir practice.

First Christian Church.

Second Block, South Broadway. Beehive Bible school meets at 9:45. A welcome and a class for every one. Teachers, officers, and scholars expected to be on time. Strangers and visitors cordially invited.

Morning church worship begins at 11:00 o'clock. The Lord's Supper is the central part of the worship. Every member should be present to partake of this feast. The minister's message will deal with the subject of Christian Benevolence—the church's responsibility in the care of the orphans, widows and the aged. This sermon is in view of the canvass which is to be put on on the seventh of December for the coming year's work. No special offer-

ing will be taken Sunday morning. Junior C. E. at 4:30. Intermediate at 5:30. Senior at 6:30.

At the evening church hour, if the slides come, a set of pictures on Christian Benevolence will be shown. These pictures are very fine. Every member of the church ought to see them. The public invited. If the pictures do not come the minister will preach on the theme, "The Veil Rent in Twain."

L. of J. Announcement.

The L. of J. will meet Monday evening at 4:30. Through the winter months this will be the hour. If any boy is absent three times without a reasonable excuse he can not be a member, or he will have to join again and pay his fee. Mr. Dunn the leader, has promised a New Testament to the boy who will first learn the books of the Bible in their order.

Let a Want Ad get it for you.

First Baptist Church. The W. B. M. S. will meet in district meeting Monday at 3 p. m. District No. 1 will meet with Mrs. Roff.

District No. 2 with Mrs. Hicks. District No. 3 with Mrs. Mason. District No. 4 with Mrs. Bond.

All districts will begin our third year's study in Bible outlines. Let as many of our members as possible be present with a well prepared Bible lesson. If you miss this first lesson, the lessons throughout the year will be more difficult.

Mrs. R. E. L. Ford, President. Mrs. J. T. Roff, Secretary

The ladies of the Christian Church will hold a bazaar at the church on the fourth of December. It is hoped that this will be a great success. The purpose is to secure funds for the new church building. Those desiring to contribute to this good cause are asked to take what they have to the home of Mrs. Constant, 201 E. 12th St., on the third of December.

50,000,000 in South America.
20,000,000 in Mexico and Central America.
13,000,000 in the South who are not Christians.

It proposes to raise \$75,000,000 in cash and five-year pledges between now and December 7 for extending the Kingdom of God through greater emphasis upon evangelism, enlistment, Christian education and Christian benevolence at home and in all parts of the world.

These Are Christ's Commands to Us:

Go ye into all the world and preach the gospel to every creature—Mark 16:15.

Whoever shall call upon the name of the Lord shall be saved. How then shall they call on Him in whom they have not believed? and how shall they believe in Him of whom they have not heard? and how shall they hear without a preacher? and how shall they preach except they be sent?—Romans 10:13-15.

As my Father hath sent me, even so send I you.—John 20:21.

WHAT IS AMERICANISM?

Democracy means nothing but the equality of men. Americanism means the same thing.

When the spirit of freedom rose amid the colonial camp-fires and struck for the liberation of the colonies, its birth-cry was the declaration: "All men are created free and equal."

When the wise men of their generation assembled on the Schuylkill to formulate a constitution, they vitalized in their historic production the principle on which the Minute Men had stood in winning the Revolution. The organic law of the nation guarantees once and forever the equality of men.

Class legislation is violative of our historic principles and destructive of our form of government. Class distinctions are abhorrent to every tradition of free America. Class agitation and class recognition are treason to the basic principle of our national life.

It is not strange that demagogues should appeal to the prejudice of classes. It is passing strange, however, that they should publish such appeals and still claim to be Americans.

It is natural, perhaps, that classes should yield to the law of economic determinism and seek to enrich themselves at the expense of all mankind. But it is beyond human comprehension that such classes seek to justify their action by pleading the inalienable rights of American citizens.

Laws designed to benefit manufacturers only or farmers only or miners only or printers only or merchants only are undemocratic in their origin, and, if detrimental to other classes, are unamerican in their effect.

Candidates who pose as especial friends of farmers or business men or laboring men may be good politicians, but beyond any question they are bad Americans.

In the long regime of the Aldrich domination manufacturers were the chosen children of national legislation. They received special privileges from the willing hands of each succeeding congress. And every privilege they received struck deep and straight at the red heart of Americanism.

In more recent years special privilege has courted the agricultural and laboring classes. No public moneys may be expended in the prosecution of such classes when they combine unlawfully to restrain trade. And Americanism is once more violated by ignoring the equality of men.

Thus it is that Americanism suffers at the hands of men who claim to be Americans. Many of such honestly believe they are Americans. But the crying need of that nation known throughout the world as America is a universal understanding of what Americanism is. Let it be understood that no man can be an American and deny the equality of men.

OF INTEREST TO OKLAHOMA

Friday's news dispatches tell of the arrest and indictment at Portland, Oregon, of twenty-two I. W. W.'s. They are charged with violating the Oregon law prohibiting criminal syndicalism. The alleged violation consisted in their carrying I. W. W. cards. The maximum penalty is five years in the state prison.

This story is of unusual interest to the people of Oklahoma for the reason that this state has identically the same law prohibiting syndicalism that these I. W. W.'s were indicted under in Oregon. Last winter when the Oklahoma legislature was in session the writer of this editorial obtained a copy of the Oregon statute and secured its passage through the legislature of this state. The two laws are identical.

It therefore follows that if it is a violation of the law for a citizen of Oregon to carry a membership card with the I. W. W., it is also a violation of the law for a citizen of Oklahoma to carry such card. The law is the same in both states. What constitutes a violation in one state is a violation in the other. And a violation of the Oklahoma statute subjects the violator to five years at McAlester and a fine of \$5,000.

The moral is—do not carry an I. W. W. card in Oklahoma. If the officers are not asleep, you may wake up some beautiful morning about five years hence and find yourself completing a long term in the penitentiary.

A recent poll of congress shows that General Wood is the favorite republican candidate for president. Probably because Wood is a short abbreviation of Woodrow—and very short at that.

ADA HIGH WINS OVER M'ALESTER

The Ada High School football team met and defeated the McAlester High School team in the latter city yesterday by a score of 27 to 6. The Ada lads demonstrated a superiority from the outset, although the first quarter ended without either side being able to score. The second quarter started with a rush and during that period the local lads put over two touchdowns and kicked one goal. End of first half, Ada 13, McAlester 0.

The last half was hard fought. Ada scoring one touchdown in the third quarter and McAlester doing likewise but failed to kick goal. In the fourth quarter Ada put over another counter, and kicked goal. Score, Ada 27, McAlester 6.

The entire Ada team played good ball, but Oliver showed some brilliant streaks. He intercepted two McAlester passes, running 65 yards at one time for a touchdown and 83 yards for another counter.

The following was the lineup: Oliver, left end; McKendree, left tackle; T. Kerr, left guard; Laird, Center; Burk, right guard; McKeown, right tackle; M. Derrick, right end; Mallory, quarterback; Orr, left half; Crawford, fullback; Cunning, right half.

Substitutes: Crawford for Laird; Cunning for Crawford; T. Derrick for Cunning; Meaders for M. Derrick; Ferris for McKeown.

War Party Strong in Italy.

By the Associated Press
LONDON, Nov. 22.—D'Annunzio, it appears, has been stirred to further efforts by the fact that the recent Italian elections were unfavorable to his cause. Adventurers are flocking to his standard, the reports state, and among a certain element there seems to be a desire to make him president of Italy. Well informed quarters believe that he merely desires to obtain Dalmatia for Italy and has no republican ambition. A late report from Rome says the military party which favors the annexation to Dalmatia has brought such strong pressure to bear upon the government that the situation is delicate.

Fannie Bloomfield Zeisler at Normal

While comparatively few people perform well themselves on the piano, it is a fact that at some time or other a very large per cent of the people who have developed their musical talent even to a small degree have "taken lessons" on the piano. The piano is the universal musical instrument. For these and many other reasons, the people of Ada, and more especially the music lovers, will be glad to know that perhaps the greatest woman pianist in America will be at the Normal School auditorium next Friday night in a regular concert.

An impartial school encyclopedia says of Mrs. Zeisler: "Her musical ability was so marked by the time she was eight years of age that she was placed under excellent instruction, and her musical education was completed by five years of study in Vienna. In 1885 she married Signund Zeisler, a prominent Chicago lawyer. Madam Zeisler has played before public audiences in the principal cities of Germany, France, Austria, England and America, and has everywhere won the praise of the severest critics for her mastery of technique and her marvelous gifts of interpretation. Her temperamental and personal magnetism have also been factors in her successful career." J. M. Gordon.

YOUNG BEAR DEAD AT AGE OF EIGHTY

By the Associated Press
TAMA, Iowa, Nov. 22.—Robert Young Bear will probably become chief of the Mesquakie Indians in Iowa, succeeding his father, Chief Push-ton-e-quah, who died recently at the age of 80 years. Robert Young Bear is recognized as a leader in the tribe, and although the Indians do not always follow the laws of heredity in selecting their ruler, he is looked upon as the logical successor of his father.

Chief Push-ton-e-quah, for years the ruler of the Mesquakie, was a full blooded Fox Indian, a native of Iowa. He was said to have been the only Indian chief recognized by the government and paid a salary as such. Since 1900 he received \$500 annually from the government for his work in ruling his tribe. His rule was restricted by federal laws, but in all tribal questions he was the commander and advisor of final resort. He was noted as a friend of the white man.

Born in Iowa county near what is now the town of Homestead, the son of Kiokwa-ka, Chief Push-ton-e-quah was adopted by Chief Pa-wi-shi-ka into the Mesquakie tribe. Just how he succeeded to the leadership of the tribe at the death of "Johnny Green" is not clear in tribal traditions.

Chief Push-ton-e-quah was

mourned according to ancient Indian custom, including a big feast. His funeral was conducted according to the Indian ritual and was attended by a number of white persons.

Would You?

William Allen White in the Emporia Gazette: Miners in the Pittsburg district here in Kansas have to work in a thin vein of coal; they have to lie on their sides to mine; they are wet all their working day, and have to go wet for over an hour before they can get clean, dry clothes.

Would you want to do that more than six hours a day? They have to pay for their own powder and fuel and then get only 76 cents for coal that sells for from \$7 to \$10 a ton.

Would you feel like lying all day on your side in wet clothes and working more than five days a week if there was a profit of 600 per cent somewhere between your price for coal and the consumer's price for coal?

They make good day wages—from \$5 to \$8 a day, but their average annual wage is less than \$800 a year.

That is because the operators find it good business to lay off miners in the summer time and let prices soar in the winter time.

Would you be content with an eight hour day on that basis?

The miners are dead wrong to strike at this time and imperil the lives of millions of people. They should live up to their contracts.

But in their places—would you? The best Christianity is found in putting yourself in the other man's place.

LOOKING AND FINDING

We usually find about what we are looking for in this world. If we have no confidence in our assistants and our business associates, and show it, we are almost certain to find ample occasion for doubting them. On the other hand, if we are looking for evidences of ability, worth, reliability, trustworthiness and initiative and are willing to give a word of well-merited praise, we will seldom have reason to be disappointed. The innate nobility which exists in the average individual will rise to meet the good opinion held by those whose approval is valued. Exactly the opposite is true, also. If a helper gets the idea that his motives and capabilities are thought lightly of or doubted, resentment springs up and that individual fails to do his best. It is a case of sinking or rising to meet the opinion of those about us. Let's help others up—not down.

It would be a great thing for the ragged nerves of the country if we could have a world series quarterly instead of annually. While the pale and scarlet hose are battling for the mastery we have heard less grumbling and read less criticism than at any prior time for five years. As a safety valve for excited people the big series is a marvel.

If a body of troops should ride down and shoot down a bunch of Russian workmen, we, the people of the United States, would be filled with horror. But when a body of Pennsylvania militia dragoons a body of steel workers peacefully assembled we take it as a wise precautionary proceeding.

Another thing that gives an editor a hob-nailed disposition is to be tied down at his desk writing about trouble on the Mexican border while some hundred baseball fans are congregated about a bulletin board across the street getting the returns from the world series.

Don't worry. The country is going to be all right as soon as a lot of our people get through saying the things they were kept from saying while the war was on. It's just the escape of a lot of accumulated gas.

Joe Bailey can build up a tremendous circulation for his proposed Texas daily if he will only publish the inside history of standard oil's legislative activities. It would make mighty interesting reading.

A profiteer may be defined as anyone that we buy something from. A reasonable profit may be defined as the profit we make when selling our product to someone else.

This nationwide agitation has served one good purpose at east. It has shown the people of Oklahoma that Campbell Russell is not in a class to himself.

True enough the Republican congress said it was going to settle all these reconstruction problems but it never said when it was going to do it.

Nor do we feel like criticizing the present congress for doing nothing but repeal the tax on soda water. That's really more than we expected of it.

Another reason why we would hate to see the league defeated in the senate is that it would cause so much rejoicing on the other side of the Rhine.

And some senators supported the war by speaking a month in favor of a war measure that could have been passed in thirty minutes.

And the armies in France were not materially benefited by a senatorial eulogy that required three weeks to deliver.

It's a cinch that the defeat of the league of nations would not be celebrated west of the old Hindenberg line.

Any how the Fall amendments seem to have been dashed by the fall guy.

Henryetta Standard: Monday night after Scott Ferris had finished his talk on "Co-operation" to the business men at the Chamber of Commerce banquet one gentleman said, in an aside: "You have heard the next Senator from Oklahoma." This is a prophetic utterance, and yet one that may as well come to pass. Mr. Ferris has proven his worth as a statesman in twelve years as a congressman. He has been honest, and held steady to the administration during the years of the war. Many republicans, knowing that Mr. Ferris would be a more popular candidate than Senator Gore, have begun to dip into democratic affairs and are fighting Mr. Ferris and working for Gore.

SEVERAL ARE INJURED IN AN ATTEMPTED HOLDUP

By the Associated Press. BUFFALO, N. Y., Oct. 7.—Several men were slightly injured and one reported severely wounded by a bullet from a revolver this morning when a crowd of one thousand men held up a car of the Buffalo & Lake Erie Traction Co. between the city limits and Lackawanna.

Fusillades of rocks met the cars as they came to a standstill. The workmen on the cars fought back and several of them, according to the police, used revolvers.

WOMEN FAIL TO SEE GOV. ROBERTSON

EXECUTIVE TOO BUSY TO DISCUSS EXTRA SESSION IN REGARDS TO WOMAN SUFFRAGE.

By News' Special Service

OKLAHOMA CITY, Oct. 5.—Governor Robertson was reported busy to woman suffragists urging a special session of the legislature be called to ratify the equal suffrage amendment to the constitution each day last week when they called at his office according to Miss Aloysius Larch-Miller, secretary of the state committee for ratification.

The suffragists presented to the governor on September 24, a list of names comprising a majority of both houses of the legislature who had pledged themselves to pay their own expenses to a special session if one should be called this fall to vote on the amendment. The delegation presenting the names was composed of Miss Larch-Miller, Mrs. Kathryn Van Leuven, president of the Oklahoma county Young Women's democratic club, and Miss Marjorie Shuler of New York. They say the governor assured them that he would give them an answer to their request on the following Saturday.

When they returned on Saturday, they say, the governor was reported busy. They had the same experience when they went back on Monday and Tuesday and throughout the week. From other members of the state administration, they say, they received promises of support. H. R. Christopher, the governor's secretary, being among those who assured them a special session would be called.

"We shall keep up the effort to get action from Governor Robertson," said Miss Larch-Miller yesterday on her return from a brief visit to her home in Shawnee.

CINCINNATI GREETED DIAMOND HEROES

GREAT ENTHUSIASM AS VICTORIOUS REDS RETURN HOME FOR CONCLUSION OF THE SERIES.

By the Associated Press

CINCINNATI, Oct. 7.—Cincinnati today greeted her returning victorious baseball team while everything was in readiness for the resumption of the world's series at Redland Field this afternoon.

That victories of Manager Moran's outfit at Chicago have added to the enthusiasm was displayed here during last week and today's attendance promises to be greater than ever.

The weather man was exceptionally kind during the two games played here last Wednesday and Thursday and indications were for fair weather today although the torrid weather of last week can hardly be hoped for.

The announcement that came from Chicago that Manager Moran would work Reuther today, leads all the fans here to believe that an additional game on Wednesday will not be necessary, but in opposition to this view it is called to mind that Manager Gleason of the visitors will in all probability use Kerr, who scored the only victory over the Reds that has thus far been counted and who held them to three hits, allowing them only three safeties.

The game of yesterday was the last in which the players share in the proceeds and should the Reds win today, the series will come to an end, thus ending in short order the chance of the clubs to make big money. However, if the Sox win the two teams will do battle here tomorrow and should the Sox win again they will go back to Chicago on Thursday for the eighth game.

SOX COME BACK; FORCE 10 INNINGS

to second. Ring grounds out to shortstop. Two hits, no runs, no errors.

Ninth Inning. Chicago—Schalk strikes out. Kerr grounds out to pitcher. Liebold walks. Liebold steals second. E. Collins flies out to center field. No hits, no runs, no errors.

Cincinnati—Rath grounds out to third base. Daubert singles. Groh hits to shortstop, forcing Daubert at second. Groh safe on first. Groh out trying to steal second. One hit, no runs, no errors.

Tenth Inning. Chicago—Weaver hits first ball for a double. Jackson beats out a bunt in front of the plate. Weaver going to third. Felsch strikes out. Gandil flies out. Weaver scoring. Risberg grounds out.

Cincinnati—Rousch, Duncan and Kopf all go out in quick succession.

It isn't that we can't settle our industrial troubles. We simply can't settle them in a way to give capital a continuation of its graft and give the workers enough to retire on.

INDUSTRIAL MEET IS HEADED BY MR. LANE

By the Associated Press

WASHINGTON, Oct. 7.—Disagreement over the rules proposed for the governing of the Industrial Conference called by President Wilson resulted in the conference adjourning suddenly today after Franklin K. Lane, secretary of the Interior, had been elected permanent chairman. The conference will meet again at 2:30 o'clock this afternoon.

As proposed by the committee, the rules provided that all conclusions and decisions must be arrived at by unanimous vote of the three groups representing capital, labor and the public, while the decision of each individual group would be made by a majority of the members of that group. The rule was attacked by John Spargo of New York, a delegate representing the people.

Another provision of the rules reported by the committee was that there be two daily sessions from 9:30 to 12:30 noon and 1:30 P. M. to 5:30 P. M.

The conference was expected to continue two weeks or more.

MRS. DAUGHERTY HERE IN JR. RED CROSS WORK

Mrs. Charles L. Daugherty, of Oklahoma City, was in the city today in the interest of the forthcoming Red Cross drive. Mrs. Daugherty is engaged in the junior work of the Red Cross and is organizing the work among the pupils of the various state normal schools. She was with the East Central Normal at this place this morning and reports a most splendid reception.

Mrs. Daugherty is the wife of Charles L. Daugherty, for the past several years prominent in Oklahoma politics, and has been faithfully devoted to all kinds of war work ever since America entered the war.

She stated that she visited the normal school here in an official capacity, but at the same time took it upon herself to see just what character of work was being done at this place. She expressed herself most highly pleased with the personnel of the faculty and stated that she had never seen a normal school doing better work than is being done at East Central. She was also delighted with the city and said that she had no idea Ada was such a town as she found it to be.

Knott of Konawa, but who is now in Ada taking a two months treatment for tuberculosis. Corp. Knott was one of the few men from Oklahoma who had the privilege of being with the famous 89th Divisions in France.

More pep was shown at the football game yesterday than at any other game this season, regardless of the Ada team's handicap in size and weight. It was a veritable pep meeting, with horns and yells creating enough noise to make one think he were in a real battle of the recent war. This is a great credit to the school and the school and yell leaders should be given credit for the spirit shown when the odds were so great against them.

The Ada Athletic Association will hold a meeting Tuesday evening in the lobby of the News office for the purpose of electing officers and directors for the coming year. MISSOURI VALLEY HONORS AT STAKE

By the Associated Press
KANSAS CITY, Mo., Nov. 21.—With not a single conference game on tomorrow's football calendar, followers of the sport in the Missouri Valley Conference are looking forward to the Missouri-Kansas game which will be played at Lawrence Thanksgiving Day. The contest is of championship calibre. For years Kansas and Missouri have battled for gridiron honors on Thanksgiving, and each year the Turkey Day game brings out thousands of football fans. Particular interest centers in the clash this year because the Missouri Valley title is at stake. Missouri eliminated the Washington University eleven as a championship contender at St. Louis last week, defeating the Tigers 7 to 0. Now only Kansas stands in the way of the Tigers for the 1919 valley title. As a result, one of the keenest and hardest fought football games this season in the Middle West is expected at Lawrence next Thursday. Missouri has met and defeated

more conference teams than has Kansas, but the two teams appear about evenly matched. The only chance for a comparison of strength comes through the results of the clash each team has had with Nebraska. Nebraska defeated both Missouri and Kansas, but Kansas was able to cross the Cornhusker goal line for a touchdown while Missouri had to be content with a touchback and a field goal. On the other hand, Nebraska piled up a greater score against Kansas than against Missouri. The Iowa Aggies again demonstrated their strength last week when they defeated the Kansas Aggies by the score of 46 to 0. The Iowa State team meets Iowa University at Iowa City tomorrow in the big game of the season in that state. The University team is considered one of the best in the Big Ten Conference, while the Iowa Aggies, following a poor start, have developed an eleven of great strength. The Kansas Aggies play the Oklahoma Sooners at Manhattan Saturday, and judging from the calibre of the Oklahoma eleven as displayed so far this season, the Aggies are due for another defeat. Saturday is Homecoming day at Manhattan and hundreds of former Aggies are expected to visit the institution and attend the Sooner-Aggie clash. Grinnell will meet Cornell at Grinnell, Ia., tomorrow, while Mis-

souri, Kansas, Washington and Drake have no games scheduled. Despite the fact that Nebraska is no longer in the Missouri Valley Conference, the playing of the Cornhusker eleven still commands its share of interest in the valley. The Thanksgiving Day game between Syracuse and Nebraska at Lincoln is expected to be one of the best gridiron contests in the country on that day. Although Nebraska did not play up to its usual standard early in the season, the team has been gaining rapidly and the power of the Cornhusker machine was manifest in the Nebraska-Kansas game of last week.

ALIENS INVADING BRITISH AMERICA

By the Associated Press
OTTAWA, Ont., Nov. 22.—The influx of aliens during September was 288 per cent greater this year than the total for September, 1918, despite the fact that immigration restrictions have been unusually severe. A rush of homeseekers from the United States and Great Britain, of-

ficials explained, was responsible for the increase. Only a few immigrants from other countries were admitted. The total immigrants from the United States to Western Canada during September was 2,495. They brought \$609,630 in cash and \$286,000 worth of personal effects. Thousands of British colonists, unable to obtain entry into Canada, are emigrating to African provinces, according to London reports.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble. I feel it was Cardui that cured me, and I recommend it as a splendid female tonic.

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists. NC-127

THE UNIVERSAL CAR

TO FORD OWNERS

This shop has gone to the expense of installing all the modern machinery required for overhauling and rebuilding Ford cars. Car owners who bring their work to us have at their command a modern Ford plant and highly specialized Ford workmen.

We subject your car to expert examination, and make whatever repairs are needed just as you would get done in the factory at Detroit. Our Burning-in Machine—the only one in Ada—puts your engine in the best possible condition without resorting to ship-shod methods that are so ruinous to motors.

It is reasonable that we should give the best Ford service, because we sell Ford Cars and want every one of them to make good. Moreover, we use the GENUINE FORD PARTS—not mail order pieces that are bought because the lowest price was the greatest inducement.

You know what your job will cost you before we start to work.

After all, it is to YOUR interest and to MY interest to see that you get the best service from your Ford Car.

International authorities on period furniture such as Elsie De Wolfe and Lady Randolph Churchill have praised the Edison Cabinets in most glowing terms. In the illustration, you see pictured the Sheraton Design. It is an exquisite piece of period furniture.

*If it's
the progress of your family,—
nothing is too good*

You have but to know the facts about the New Edison in its period cabinets, and you will realize that it is one of the finest gifts you can bestow upon your family.

The original model of this instrument cost Thomas A. Edison 3 million dollars to perfect. It is the great inventor's answer to the demand for music's RE-CREATION. It is his own conception of the musical ideal.

Give your family the New Edison, and you give it the instrument which has astonish-

ed 3,000 audiences and the music critics of 500 newspapers, by the vivid reality of its RE-CREATION of all forms of music. Two million people have heard the living artist compare his art directly with the New Edison's RE-CREATION of that art, and no one has been able to distinguish any difference.

The New Edison has proved that it alone has mastered the secret of music's RE-CREATION. It alone is alive. *It alone electrifies your soul with that stirring, surging power which is music.*

SCHOOL TOO CHEAP ENGLISH BELIEVE

By the Associated Press

WEALDSTONE, Eng., Nov. 22.—The local council here does not approve of Dr. Christopher Addison, Minister of Health, with a salary of \$25,000 a year, sending his daughters to a secondary public school at Harrow where the fees are only \$10 a term.

One councillor stated that he did not consider that people with \$25,000 a year should monopolize the school which was intended for the masses. There was a waiting list of 75.

Dr. Addison replied that he would gladly pay higher fees if the rules permitted and declared that he had as much right as any other citizen to send his children to a public secondary school.

"In my view," he added, "much advantage would accrue if there were less class distinction in our schools."

Bring in that picture and let me frame it for you.—C. A. Cumming.

YANKEES HELD TRAIN AGAINST COSSACKS

By News' Special Service

VLADIVOSTOK, Nov. 20.—The 68,000 rifles which an American detachment was conveying by train from Vladivostok to Admiral Kolchak's forces at Irkutsk, went through intact to that city, despite the demand of General Semenov, the Cossack commander in Central Siberia, that 15,000 of the rifles be handed over to him en route.

Semenov held up the train conveying the arms at Chita on Oct. 24 and gave the Americans until 11 o'clock on the morning of Oct. 25 to comply with his demand. Details of what happened after Semenov issued his ultimatum were not known until today.

The American train was held up for forty hours, the Lieutenant commanding the train guard not knowing until after the expiration of Semenov's time limit that the Japanese had interfered and obtained permission for the train to proceed. According to members of the Stevens Railway Commission at Chita, after Semenov demanded the rifles the guard of fifty Americans crept under the cars, using the cases of guns as a barricade. Semenov ran an armored train on the tracks opposite them.

The Americans planned to blow up the rails at each end of the armored train as soon as the attack began to prevent the moving of the Semenov train, then storm and capture it, the train being too close for the Americans to use field pieces. After the expiration of the ultimatum the Americans demanded and obtained the removal of the armored train from the tracks opposite them.

The representatives at Vladivostok of Admiral Kolchak have informed Major Gen. William S. Graves, commander of the American forces in Siberia, that the Omsk government had issued orders for the delivery to Semenov of 15,000 rifles.

WOOLENS POPULAR AMONG THE ENGLISH

By the Associated Press

LONDON, Nov. 21.—Dame Fashion has set her stamp of approval on woollens for this winter, for no other reason apparently than the very high cost of such materials.

The most woolly of jumpers, jackets, hats, stockings, scarfs, gloves and nearly every other article of women's and men's apparel which may be made of wool, are in great demand at increased prices. Where actual wool is used, it must be heavy looking of the extremely fuzzy variety. Where it is not used other materials must be made to appear as woolly as possible.

Except by those with whom costs are necessarily a consideration, the forthcoming season of woollens is cordially welcomed. It is regarded as a becoming fashion and rather a change from hardness of line and materials which can only be worn well by the very young.

CZARINA'S PEARLS TO BE AUCTIONED

By News' Special Service

LONDON, Nov. 22.—A historic pearl necklace, regarded by experts as one of the finest in existence, will be sold at auction in London next week by order of members of the former Russian imperial family. It consists of four strands of 188 perfectly matched pearls, the largest of which weighs twenty-eight grains, the total weight of the necklace being 4,000 grains. It is understood that the reserve price is 350,000 pounds sterling.

It is believed that the necklace belonged originally to the Czarina Natalia Narishkina, the mother of Peter the Great, but for many years it has been out of Russia and came to England recently worn upon the body, "but not in the usual way," it is mysteriously asserted.

If the necklace is not sold complete, it will be offered for sale row by row.

Initial Monday Bridge Luncheon

A most elegant and delightful affair was the initial bridge luncheon party at the beautiful home of Mrs. W. N. Mays, Nov. 17th. The guests were seated at the luncheon table which was bright with yellow chrysanthemums, handpainted chrysanthemum place cards, elaborate grapefruit baskets filled with fruit cocktail, and dainty yellow nut baskets. A most delicious second course of beaten biscuits, cheese balls, shrimp salad and apricot ice followed with after dinner coffee garnished with yellow reception sticks.

After lunch two pleasant hours "all too quickly passed" at bridge tables.

The busy ladies who have organized this exclusive club, believe with the bard of Avon, that without amusement the mind grows stale and will continue the Monday Luncheon Bridge Club throughout the winter.

Miss Spooner will be hostess next Monday, Nov. 24th.

Talks to "Y" Girls.

Miss Loucks, field secretary of the Y. W. C. A., talked to the Y. W. C. A. girls Thursday evening from 4 to 5. The talk was upon things pertaining to the Y. W. C. A. and the things which it does. An informal talk to the chairman of the committees followed.

Miss Loucks was the guest last evening of Miss Paxton, critic teacher at the Normal, who gave an informal dinner in her honor at the home of Mrs. E. V. Estill, at 1023 East 8th Street, after which she left on the 10:15 Katy for Durant.

"Gym" Girls Entertain Gridsters. The physical training girls, assisted by all girls who play basketball, joined together and "feasted" the football teams of Edmond and Ada Friday evening in the gymnasium at the Normal. A regular picnic lunch was served in true picnic style. Fried chicken, sandwiches, pickles, salads, cake, pie, apples, oranges, bananas and hot chocolate made up the menu and seemed to be enjoyed to the utmost.

After refreshments came the grand march led by Mr. Wantland, coach of the Edmond team, and Miss Alma Mount. The couples wound in and out, around and about, guided by Miss Jones and her triangle. A short program was given by Misses LaVerne Brown, Clarice Cartwright, Mildred York, Fay Knott, Carrie Roach and Thelma Mooney. Old fashioned games were to have been in order but the lights went out and candles did not last long enough to permit of such. The guests left at an early hour declaring that they had enjoyed the feast immensely. Those present besides the hostesses were: Messrs. Wantland, LeForce, McAnich, Frary, Boatright, Forsythe, Hafer, Byrd, Holland, Williamson and Courtney, of Edmond; Messrs. Ingram, King, Watson, Kidd, Anderson, Tolliver, Brents, C. Roach, H. Roach, Heard, Hargrave, Vernon, of Ada; Faculty members present were Mr. Newcomb, Mr. and Mrs. Robinson, Mrs. Carter, Misses Jones, Gamble and Carney, and Miss Gordon.

Miss Bess Barrow Entertains.

Miss Bess Barrow entertained a group of her friends last night at the home of Mrs. L. E. Pettigrew, on East 13th Street.

Good music was the main feature throughout the evening, after which light luncheon was served.

Miss Barrow proved to be a most delightful hostess, as everyone present enjoyed themselves very much.

Birthday Party.

S. L. McClure and Gilbert Polly, both of the Model, had a birthday yesterday, which was celebrated at the home of Mr. and Mrs. S. L. McClure by a dinner party last evening.

Those present were Miss Edna Brown, Miss Juno Loman, Mr. and Mrs. Tom Roff and Lawrence Green and Mrs. Green.

The evening was a delightful one and will be long remembered by those present.

Friday Bridge.

Mrs. W. K. Chaney was hostess to the Friday Bridge Club at her home 121 E. 13th yesterday.

After an unusually interesting game of bridge, which ended with Mrs. Manville scoring high, a delicious salad course was served to the following guests: Mesdames Arthur Marshall, Chas. Barney, L. P. Boone, W. N. Mays, E. C. Hunter, M. F. Manville, S. T. Phillips, J. T. Higgins, Mrs. Stevens and Mrs. McCormick of Dallas.

Five Hundred Club.

Mrs. Ed Hunter entertained the 500 club Thursday afternoon, at her beautiful home in South Ada. The regular club members present were Mesdames Warren, Bailey, Parker, H. D. Johnson, Lasater, Dr. Cummins, Case, R. M. King, Barney, Boggan, Anderson, Harmon Ebey and Ben McKinley.

The invited guests were Mesdames Chaney Phillips and Case. The hostess served a delicious luncheon after the game.

Friday Bridge Club. The Friday Bridge Club held their meeting yesterday at the beautiful home of Mrs. P. A. Norris in the eastern part of the city.

It was an unusually pretty affair, for the Thanksgiving sentiment was prevalent everywhere.

Upon entering the dining room the guests were agreeably surprised by the sight which greeted their eyes. The table being decorated with a design which very appropriately commemorated the Thanksgiving season. Also the luncheon was one upon which one could not only feast their eyes but their appetites as well.

Those present were: Mesdames P. A. Norris, M. C. Wilson, John McKinley, Claud McDonald, Francis Wintersmith, Tom King, W. W. Sledge, Jim King, Henry Wells, Anderson, W. H. Ebey, Gillette of California, and Miss Dodd and Miss Keller of the Normal.

Mrs. W. W. Sledge won high score.

Keep The Egg Basket Full!

The feed elements that make whites of eggs are entirely different from those that make yolks. When hens aren't fed both the white and yolk making elements, they can't keep the egg basket full. The usual method of feeding mostly grain makes yolks but not enough whites to complete the eggs.

Missouri Experiment Station tests prove that 100 lbs. of wheat, corn, oats, barley and kafir corn make (above bodily maintenance) an average of 224 yolks to 154 whites. Based on data from the same experiments, Purina formulas produce, (above bodily maintenance), as follows—

	Yolks	Whites
Purina Scratch Feed	247.49	142.11
Purina Chicken Chowder	182.05	282.55
Combined Ration	429.54	424.66

These Purina feeds not only make a practically equal number of whites and yolks but more of both than ordinary feeds.

Note that Purina Chicken Chowder contains the necessary white-forming elements to balance up the yolk-making grain ration. That's why it makes hens lay so heavily. Instead of the yolks being absorbed by the hen's system, Purina Chicken Chowder makes the whites to complete the eggs and they are laid. Thus we can absolutely guarantee

more eggs or money back

on Purina Chicken Chowder if fed with Purina Scratch Feed as directed. You take no risk.

CONDEMNED NEGROES REACH ARKANSAS PEN

By the Associated Press

LITTLE ROCK, Ark., Nov. 22.—

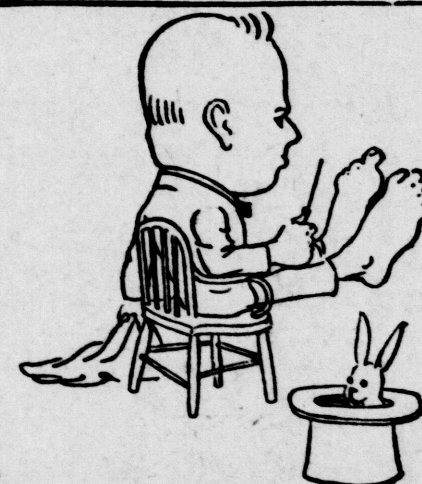

Heavily shackled and surrounded by 12 officers the 12 negroes under death sentence for murder during the recent insurrection near Elaine, Ark., arrived here early today and were immediately taken to the state penitentiary and locked in the death cell next to the death chamber. When the sheriff and his officers left early yesterday they had eighty-seven prisoners. Seventy-five of

them with prison sentences ranging from one to twenty-one years were left at the state convict farm at Cummins when the train reached here this morning.

Six of the condemned negroes are under sentence to die December 27 and the other six January 2nd. It is considered unlikely that Governor Brough will heed the request of northern negro organizations for clemency.
